

2017 High School Peace Proposal

Learning Cluster
 Super Global High School Program
 Kansai Soka High School
 March 16, 2017

Kansai Soka High School's Super Global High School (SGH) Learning Cluster Program is an extracurricular class that teaches students to conduct academic research on global issues in English. 2016-2017 Learning Cluster (3rd class) was comprised on 24 students, 2 student advisers, and 6 research groups. In the course of one year, students learned and researched about global issues related to Sustainable Development Goals (SDGs) set by the United Nations all in English. The foundation of this program is created upon Founder Dr. Daisaku Ikeda's Annual Peace Proposal, which called out for global education based on the four fields of development, environment, human rights and peace.

The aim of this program is to provide students with the opportunity to deepen their understanding about current global issues that humanity faces and to nourish a sense of responsibility and hope through their research and autonomous learning. Through this program we hope that students will discover passion in their learning which will be carried out through their university studies, future career and lifework, which will lead to fostering the next generation of global leaders who will live contribute lives for the betterment of humanity.

As the final research project of Kansai Soka High School's Super Global High School (SGH) Learning Cluster Program, six research groups of 4-5 students created a *High School Peace Proposal*. This project includes detailed analysis of one global issue from each group provided with a concrete action for solution based on student's research, discussion, presentations and fieldwork throughout the year.

It is with great pleasure to present to you the 2017 High School Peace Proposal.

Table of Contents

- I. No Poverty (SDG 1): Child Poverty in Japan
